Dear Parent / Carer

RE: Drop off / Pick up Arrangements

As you will be aware we are currently in the process of refurbishing the Asquith Building, understandably this has meant that we have had to review the arrangements for drop off and pick up time. This is an area that we have been monitoring carefully over the last few days.

To resolve some of the immediate issues and ease congestion in the neighbouring residential areas, we would like to politely ask parents / carers not to drop off or pick up their child on Maple Grove and the surrounding cul-de-sacs. We have been informed that some parents / carers are choosing to park on pavements or parking on both sides of the road making it difficult for other cars to pass and dangerous for students who are trying to cross the road. Instead, please drop students off on Hall Lane or proceed around the car park as per the diagram below. If you arrive before the end of school and are picking up your child, please wait in the main car park, keeping to the left along the drop off / pick up point. To ensure that students are not walking across the car park at the end of the day, they have been asked to follow the path and wait to be collected in the area as per the diagram below. It is requested that parents do not arrive more than 5 minutes before the end of school day, as we have limited space for waiting. If you are waiting for your child, please support us in maintaining cleaner air by turning off your car engine.

As previously requested please do not drop off or pick up your child along the main drive, as this restricts the flow of traffic into and out of the academy.

Whilst we do believe that these arrangements will improve the congestion in the car park and local area, where possible, we would continue to encourage our students to walk to school where possible or be dropped off away from the school site and neighbouring residential areas.

Yours faithfully

Mrs J Booth
Assistant Principal
